

## DERMA-ROLLER MEDICAL GRADE

A NEW GENERATION OF DERMA-ROLLER HAS ARRIVED EXCLUSIVE TO JOLI VISAGE SKIN CARE BRAND. HIGH TECH, MEDICAL GRADE NEEDLES DESIGNED FOR SAFER AND SMOOTHER RESULTS. THE ANTIQUATED TECHNIQUE OF THE PAST USES A DERMA ROLLER NEEDLE WIDTH 0.35 MM GAUGE AND CAN BE TRAUMATIZING TO THE SKIN. THE FINEST ROLLER DEPTH IS NOW AVAILABLE WITH A RECTANGULAR PYRAMID NEEDLE DESIGN WITH A DIAMETER OF 0.2MM, AND TIP OF NEEDLE BETWEEN 0.01 MM - 0.2 MM.

THE INNOVATIVE DESIGN SURFACE OF THE NEEDLE IS MUCH SMOOTHER THAN THE GENERAL TYPES, THEY WILL PRECISELY, WITHOUT DAMAGE, DELIVER A CONTROLLED, MINUTE, INVISIBLE STAMP THROUGH THE SKIN QUICKLY AND EASILY, WHICH WILL DECREASE THE PAIN AND DISCOMFORT DURING THE PROCESS.

OUR SURFACE HEAD OF THE NEEDLE IS SMOOTHER THAN ANY DERMA-NEEDLE ON THE MARKET, EASIER TO USE, LESS PAIN AND BETTER RESULTS WITH A 33 G. NEEDLE TIP. A FINER ROLLER WITH 0.2 MM DIAMETER WITH LESS PRESSURE DELIVERS RESULTS WITH EACH USE.

THE HIGHEST HV ENSURES THE NEEDLES ARE HARD ENOUGH, NEVER BENDING OR CURVING WITH A VERY BLUNT, CONCISE TIP. BECAUSE OF THE FINER NEEDLES OF 0.2 MM, SKIN IS NOT TRAUMATRIZED. THE PRESSURE OF THE NEEDLES IS MORE COMFORTABLE AND DELIVERS A BETTER RESULT.

INNOVATIVE WAVE DESIGN ROLLER DRUM DESIGN.

THE ROLLER DRUM IS DESIGNED WITH A TROUGH ON EACH ROW OF THE NEEDLES. THE NEEDLES ARE IN A POSITION CRESTED ABOVE A TROUGH. THIS ALLOWS ONLY THE NEEDLES TO PRESS AGAINST THE SKIN DURING THE PENETRATION PROCESS. THE DRUM WILL NOT CONTACT AND PLACE ADDED PRESSURE AGAINST THE SKIN REDUCING THE PRESSURE AND PAIN WHILE USING THE DEVICE.

THE ADDED BENEFIT OF THE SERUMS OR ESSENCE USED WHILE DERMA-ROLLING PENETRATES BETTER INTO THE SKIN AND ABSORBED EASIER.

A TRADITIONAL DERMA ROLLER WOULD HAVE A FLAT SURFACE WITH NEEDLES AND SERUMS ARE DIFFUSED ONTO THE HEAD, NOT THE SKIN.

REPLACEABLE HEAD - EVERY 90 DAYS IT IS RECOMMENDED TO REPLACE THE HEAD. WE MAKE IT EASY, SAFE AND AFFORDABLE!

(PART 2 - APPLY DISSOLVABLE NUTRIENT MASQUE OR ANY SERUM OR AMPOULE DURING AND AFTER DERMA-ROLLING).
